

Activity Sheet #10: A Closer Look at What "I" Have

Directions: Using your assigned megacity, the "World Outline Map" with all the information placed on it, and the pictures that you saw of megacities, take this survey again; but this time you will pretend to be a student your age in that megacity—an alter ego or second self. How might that student answer the same survey that you took? Use all the information that you have so far. You may need the internet again as a resource.
